

Hurricane Season is June to November!

What to Do?

Before:

1. Build an emergency supply kit
2. Bring in/secure outdoor objects
3. Make records of personal property
4. Stay informed of weather conditions

During:

1. Stay inside (interior rooms, closets and hallways are ideal)
2. Keep away from windows and glass doors
3. Do not go outside when the eye passes over; heavy winds will soon resume.

After:

1. Follow directions of the authorities
2. Continue to stay informed
3. Stay away from downed power lines
4. Remain in your home unless unsafe or directed
5. Drive only when necessary
6. Report all emergencies and damage

Do You Know the Hurricane Conditions (HURCON)?

HURCON 5	General Hurricane Season, 1 June to 30 November
HURCON 4	Indicates surface winds in excess of 58 mph (50 knots) could arrive within 96 hours.
HURCON 3	Indicates surface winds in excess of 58 mph could arrive within 72 hours.
HURCON 2	Indicates surface winds in excess of 58 mph could arrive within 48 hours.
HURCON 1	Indicates surface winds in excess of 58 mph could arrive within 24 hours.
HURCON 1E	Indicates surface winds in excess of 58 mph are occurring and other dangerous conditions associated with the storm are present. All outside activity is strictly prohibited.
HURCON 1R	Indicates life-threatening storm hazards have passed but damage may persist and only emergency responders and damage assessment personnel are released to move about.
